MyCare Health Center Walk-in Flu Vaccinations

Center Line, MI, December 9, 2020 - MyCare Health Center, a Macomb County based Federally Qualified Health Center (FQHC), is offering walk-in flu vaccinations at both their Center Line and Mount Clemens clinics during normal business hours. Vaccinations are available for both patients and non-patients. Now more than ever, being vaccinated for the flu is an important way to stay safe.

MyCare Health Center also offers mobile flu vaccinations available to any business in Macomb County. For more information, or to schedule a visit, please contact Nashia Choudhury – nchoudhury@mycarehealthcenter.org.

As a Federally Qualified Health Center and first responder, MyCare provides high quality primary and preventative healthcare to all regardless of their ability to pay. MyCare operates two clinics, one in Mount Clemens and another in Center Line. The integrated services provided include routine medical care for adults, children and infants, dentistry, Medication Assisted Treatment (MAT) for addiction, behavioral health, podiatry, laboratory services, and women's health services along with other enabling services aimed to improve the health and wellness of the community. To help prevent the risk of spreading the virus, clinics are now encouraging patients to call ahead if they feel they are symptomatic. For patients visiting the clinics for in-person appointments, MyCare is taking every precaution to keep the risk for these patients low by frequently cleaning all surfaces, requiring masks to enter, taking temperatures at the door, and screening each patient with COVID-related questions. The Center Line dental clinic is now seeing new and existing patients for routine and emergency care. For an appointment, please call 586-467-0980.

Karen Wood, MyCare's chief executive officer, stated, "Flu vaccinations are an important way to stay safe this season. We are proud to offer this service to our patients and the communities we serve."
